Professional Services for the Digital Future

ABOUT ME

Hi, my name is Saifur Rohman

I'm a senior software developer with extensive experience in designing, building, and scaling robust digital solutions. Over the years, I've specialized in web development, software architecture, and system optimization, consistently delivering clean, maintainable, and high-performance code.

I thrive in leading projects end-to-end, mentoring junior developers, and collaborating with cross-functional teams to bring complex ideas to life. My expertise spans across modern frameworks, data structures, and best practices in software engineering, enabling me to craft solutions that are both innovative and sustainable.

Strategic, Adaptive, Collaborative and Always pushing technology forward.

SERVICES OFFERED

WEB DEVELOPMENT

Creating websites using general coding languages and frameworks.

APP DEVELOPMENT

Creating user-friendly applications with robust architecture and clean code

AGENTIC AI DEVELOPMENT

Developing intelligent agents that can reason, act, and adapt autonomously to achieve complex goals.

BUG FIXING & DEBUGGING

Identifying and solving code errors in existing systems.

DATABASE DESIGN

Structuring and managing data for web and dekstop applications.

TECHNICAL DOCUMENTATION

Writing clear and helpful guides for software users and teams.

TOOLS AND TECHNOLOGIES

I work with tools and technologies that help me build efficient and scalable solutions:

General coding tools for websites and software

Version control systems for team collaboration

Basic database systems for storing and retrieving data

Website builders and visual tools for rapid development

Interface design tools for prototyping

Code editors, testing tools, and simple project managers

SIMPLE TOOLS, SOLID OUTPUT.

FOCUS INDUSTRIES

My services are best suited for these industries:

Startups and Tech-Enabled Businesses

Educational Platforms & E-Learning

Online Stores & E-commerce

Non-Profits & Community Projects

Manufacturing Businesses

Medical Platform

START SIMPLE, SCALE SMART.

PROJECT SNAPSHOTS

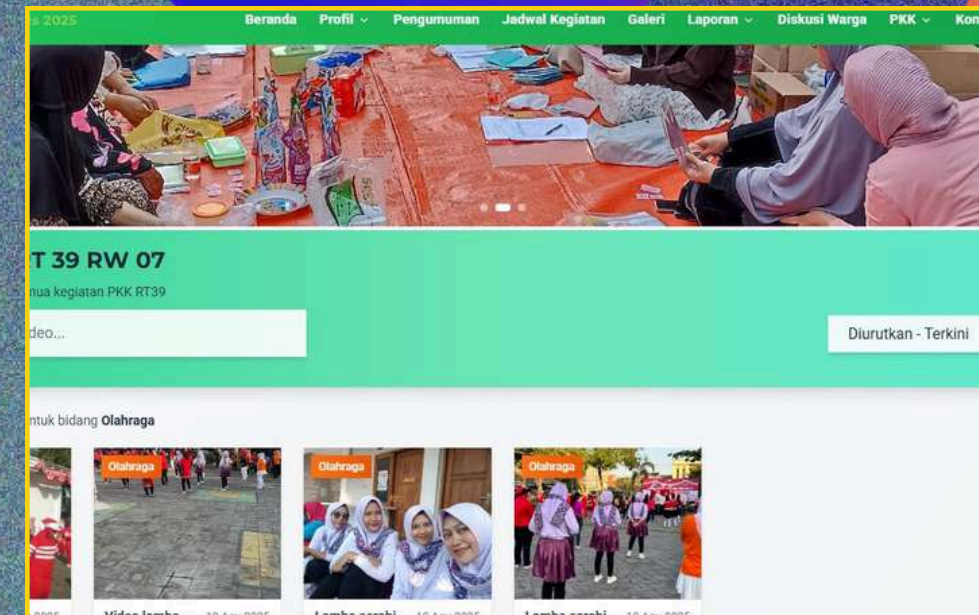

Here are a few projects I've worked on :

AVM (ANJUNGAN VALIDASI MANDIRI)
FOR PERTAMINA'S DEPOT

ERP FOR MANUFACTURING INDUSTRIES
(PT. RIGID MAJU BERSAMA)

WEBSITE FOR RT 39 MAGERSARI
SIDOARJO INDONESIA

AVM

Project	AVM (Anjungan Validasi Mandiri) for Pertamina's Depot
Goal	Guarantee fuel distribution services to SPBU
Solution	Create a priority scale based on stock resilience at SPBU, daily SPBU turnover, and travel time from the fuel terminal
Tools	HTML, CSS, JS, Python and Postgres
Outcome	Increase the effectiveness of fuel delivery to SPBU, reduce the opportunity for manual distribution errors, and increase the satisfaction of work partners or SPBU managers.

ERP

Project	ERP for Manufacturing Industries (PT. Rigid Maju Bersama)
Goal	Essentially to streamline operations, increase efficiency, and improve decision-making across the entire production lifecycle.
Solution	Integrated system that connects production, supply chain, finance, and customer management—helping manufacturers cut costs, increase efficiency, and deliver quality products on time.
Tools	Visual Basic, MS. SQL Server, Crystal Reports
Outcome	More agile, efficient, and profitable organization—able to deliver high-quality products faster, at lower costs, with greater customer satisfaction and long-term scalability.

WEBSITE RTKU39

Project	Website for RT 39 Magersari Sidoarjo Indonesia
Goal	Improving orderly, accountable and transparent administration in the RT environment
Solution	Provide a centralized, digital platform that improves communication, transparency, and administrative efficiency for the neighborhood community
Tools	MySQL, ExpressJS, ReactJS, NodeJS
Outcome	More connected, transparent, and digitally empowered community – where residents and administrators collaborate efficiently, trust grows, and services improve.
Link	https://rtku39.or.id

HOW I WORK

Simple. Clear. Focused on results.

DISCOVERY CALL

Understand goals, timelines, and tools needed

PLAN & PROPOSAL

I suggest simple steps with timelines and tools

BUILD & COLLABORATE

Code, test, review, and communicate

DELIVER & SUPPORT

Final handover with documentation and fixes

CUSTOMIZING EXCELLENCE FOR YOUR NEEDS

I don't offer one-size-fits-all pricing. Instead, I prefer to:

-  Understand your project in a quick call
-  Propose a solution based on your goals
-  Offer flexible, beginner-friendly rates

Book a free consultation to explore what we can build.

READY TO BUILD SOMETHING?

Ready to contribute expertise to meaningful projects.
