

DR. MIGUEL MARTIN MORENO, MD, CBP, MBA-Prj.Mgt., IFBA PC, CLSSYB

Project Manager | Laboratory Systems | Biosafety • Biosecurity • Biorisk Management

Professional Summary

Senior laboratory and biosafety expert with nearly 40 years of experience in healthcare, laboratory systems, and high-containment facility development. Proven capability in **project leadership, stakeholder coordination, and delivery of complex laboratory infrastructure and biosafety programs**. Experienced in managing multidisciplinary teams, ensuring compliance with international standards, and delivering projects on time, within scope, and aligned with client requirements.

Project Management Competencies

End-to-end Project Oversight (Planning, Execution, Monitoring, Closure)
Cost, Schedule, and Performance Management
Stakeholder Engagement (Government, Contractors, International Partners)
Risk Assessment & Mitigation Planning
Quality Assurance & Regulatory Compliance
Technical Review of Deliverables and Designs
Multidisciplinary Team Leadership

Technical Expertise

Laboratory Design & Retrofit (BSL-2+, BSL-3, BSL-4)
Biosafety, Biosecurity & Biorisk Management Systems
Laboratory Operations & Quality Management Systems
Research Security & Institutional Biosafety Programs
Training & Capacity Development

Relevant Leadership Experience

Founding President

BioRisk Association of the Philippines (BRAP)

Led nationwide expansion and institutional partnerships
Directed multiple biosafety and laboratory system initiatives across sectors
Oversaw development and implementation of national-level programs

Chair, Board of Directors

International Federation of Biosafety Associations (IFBA), Canada

Provided strategic oversight for global biosafety certification programs
Coordinated international stakeholders and technical working groups

Biosafety Consultant – Laboratory Infrastructure & Biosafety

Virology and Vaccine Institute of the Philippines (VIP)

Contributed to planning, design review, and compliance alignment of laboratory facilities
Ensured adherence to international biosafety and containment standards

Selected Project Experience

Laboratory Design & Advisory Projects

Provided technical oversight for laboratory planning and infrastructure development
Reviewed engineering designs to ensure biosafety compliance

National Training & Capacity Building Programs

Managed planning and delivery of biosafety and biosecurity training programs
Coordinated stakeholders across government, academia, and healthcare

Institutional Biosafety Systems Development

Led implementation of biosafety and biorisk management frameworks
Developed SOPs, policies, and compliance systems

Key Achievements

Established and scaled a **national professional organization (BRAP)** supporting biosafety capacity across the Philippines

Successfully led **multi-stakeholder projects involving government and international partners**

Delivered **high-impact training and systems implementation programs nationwide**

Recognized leader in **biosafety, laboratory systems, and risk-based infrastructure development**

Education & Certifications

Doctor of Medicine (MD)

IFBA-aligned Certifications in Biosafety, Biosecurity, and Biorisk Management

Professional Affiliations

BioRisk Association of the Philippines (BRAP)

International Federation of Biosafety Associations (IFBA)

Availability

Available for Project Manager roles (full-time or consultancy) involving laboratory infrastructure, biosafety systems, and international development projects.

Professional Statement
