## SUMMARY

Full-Stack Software Engineer and technical founder with 3+ years of experience building and shipping production-grade web applications, SaaS platforms, and cloud-based systems at scale. Proven track record of architecting reliable backend services, designing clean APIs, and delivering high-performance user experiences for global clients.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, HTML5, CSS3, SQL  
**Frontend:** React.js, Next.js, Tailwind CSS, Responsive Design, UX/UI Best Practices  
**Backend:** Node.js, Express.js, RESTful APIs, Django, Flask, GraphQL  
**Databases:** PostgreSQL, MongoDB, MySQL, Redis  
**Cloud & DevOps:** AWS (EC2, S3, Lambda, CloudFront), Docker, CI/CD, Linux, Git  
**Practices:** Agile/Scrum, System Design, Code Review, Performance Optimization, Testing

## EXPERIENCE

**AlgoMinds LLC** **Jan 2026 – Present**  
*Founder & CEO* *Remote*

- Founded and scaled a software venture delivering full-stack web applications, SaaS platforms, and automation solutions to international clients across multiple industries.
- Architected and shipped end-to-end SaaS products from ideation to production, owning system design, backend, frontend, and cloud deployment.
- Designed scalable distributed systems emphasizing high availability, low latency, and security, supporting thousands of concurrent users.
- Led sprint planning, code reviews, and mentored junior developers, raising code quality and delivery velocity.

**AlgoMinds LLC** **Oct 2023 – Jan 2026**  
*Software Engineer* *Remote*

- Developed and maintained scalable web applications using React, Node.js, and PostgreSQL, serving production traffic for real users.
- Implemented backend logic, database schemas, and RESTful APIs to power business-critical workflows and data pipelines.
- Built responsive, accessible frontends with strong UX/UI focus, improving user engagement and reducing bounce rates.
- Reduced system bugs by 30% through strategic refactoring, automated testing, and performance optimization.

**PureLogics** **Aug 2022 – Dec 2023**  
*Cloud Computing Intern* *Lahore, Pakistan*

- Deployed, monitored, and secured cloud-hosted applications on AWS, gaining hands-on expertise in scalable infrastructure and DevOps.
- Configured cloud resources (EC2, S3, IAM) and implemented security best practices for production environments.
- Supported senior engineers in troubleshooting performance bottlenecks and optimizing cloud resource utilization.

## EDUCATION

**National University of Computer and Emerging Sciences (FAST-NUCES)** *In Progress*  
*Bachelor of Science in Computer Science*

**Virtual University of Pakistan**  
*Associate Degree in Computer Science*

## CERTIFICATIONS

- **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services
- **Complete Web Development Course** – Full-Stack Web Technologies
- **Business Development & B2B Sales Masterclass** – Strategy & Growth
