

PORTFOLIO

BY: AGUSTIN LIONGSON

Hi! I'm Agustin

Your Technical Virtual Assistant

Hello Partner,

I help businesses grow by removing manual work through smart automation. I streamline repetitive tasks, clean up systems, and build workflows that save hours every week.

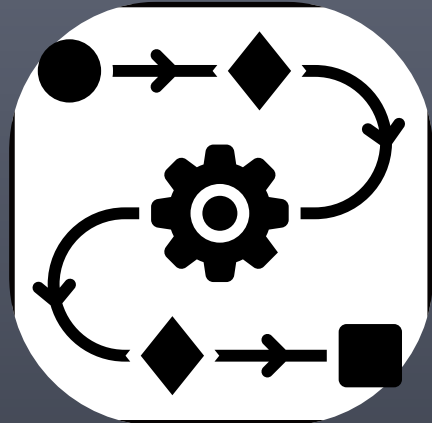

For the past two years, I've worked with founders and small teams to automate operations using tools like n8n, Zapier, Make, CRMs, and AI assistants for support, booking, and daily workflows. I also handle API connections, technical fixes, and backend setup to keep everything running smoothly.

Clients work with me because I communicate clearly, work fast, and make sure even the small details are handled properly.

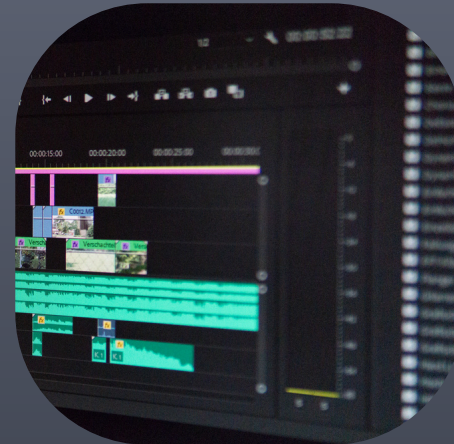

If you're ready to simplify your operations and scale with less stress, feel free to reach out on Upwork.

Let's build systems that truly support your growth.

AI TRAVEL ASSISTANT N8N

The screenshot displays the N8N workflow editor for an AI Travel Assistant. The workflow is structured as follows:

- Trigger:** "When chat message received" (1 item).
- Main Node:** "AI Travel Assistant" (1 item).
- Parallel Paths:**
 - Path 1:** "AI Travel Research Tool" (3 items total). This path involves a "Think" node, a "Google Gemini Chat Model" (Model1), and "Simple Memory".
 - Path 2:** "AI Travel Photo Finder" (2 items total). This path involves a "Think" node, a "Google Gemini Chat Model" (Model2), and "Simple Memory".
 - Path 3:** "AI Travel Newsletter..." (1 item). This path involves a "Think" node, a "Google Gemini Chat Model" (Model3), and "Simple Memory".
- Final Action:** "Send a message in Gmail" (1 item).

The bottom of the interface shows a chat window with the following message:

Perfect. Please create a newsletter and send it to equinoxagustin@gmail.com

Your amazing 7-day, 6-night itinerary for Hoi An and Sapa has been beautifully crafted into an email and sent to equinoxagustin@gmail.com with the subject: "Your Dream Trip to Vietnam: Hoi An & Sapa Adventure Awaits! vn ✨"

Type message, or press 'up' for prev one

The logs panel shows the execution was successful in 6.543s with 55,217 tokens. The output of the workflow is:

```
output
Your amazing 7-day, 6-night itinerary for Hoi An and Sapa has been beautifully
crafted into an email and sent to **equinoxagustin@gmail.com** with the
subject: ***Your Dream Trip to Vietnam: Hoi An & Sapa Adventure Awaits! vn
✨***\n\nI hope you have an absolutely incredible journey through Vietnam!
Let me know if you need any more travel inspiration or assistance. Safe travel!
```
