### PROFESSIONAL EXPERIENCE

**Oracle Fusion Functional Consultant | Deloitte | Hyderabad (Remote Delivery) Jul 2021 – Present**

**Project: American Woodmark Corporation (AWC) – Oracle Fusion Implementation**

- Led requirement gathering workshops and performed GAP-FIT analysis to align Oracle Fusion SCM with client business processes across OM, INV, and Costing modules.
- Prepared Solution Design Documents (DS-140) and Future Business Process (FBP) documentation for all SCM modules.
- Configured and implemented Oracle Fusion SCM modules: Order Management, Inventory, Pricing, Purchasing, and Manufacturing.

- Defined and validated RICE components (Reports, Interfaces, Conversions, Enhancements) to support custom business requirements.
- Managed full project lifecycle environments: CRP1 → CRP2 → SIT → UAT → PROD, ensuring milestone adherence.
- Designed and executed test scenarios and scripts for CRP, SIT, and UAT phases, achieving high defect resolution rates prior to go-live.
- Collaborated with technical teams to enable integrations with third-party applications via REST APIs and Oracle Integration Cloud (OIC).
- Led cutover planning, go-live deployment, and hypercare support for successful system stabilization.
- Delivered end-user training, documentation, and knowledge transfer to improve system adoption and reduce support tickets.

**Project: Niagara Bottling LLC & Nu-Pure Beverages – Production Support & Enhancements (EBS + Cloud Fusion)**

- Led offshore support and managed maintenance/enhancement of Oracle EBS and Oracle Fusion Cloud modules: OM, Advanced Pricing, INV, and 3PL integrations.
- Gathered and analyzed business requirements; translated them into Oracle Fusion SCM solutions.
- Performed root cause analysis for recurring issues and implemented permanent preventive resolutions.
- Gathered and mapped end-to-end business workflows between Oracle EBS and external 3PL systems using standard EDI formats.
- Collaborated with middleware teams to design and test inbound/outbound interfaces: shipment requests, ASN, stock updates, delivery confirmations.
- Coordinated and supported UAT activities; validated accuracy of enhancements before production deployment.
- Handled Oracle Service Requests (SRs) for critical application bugs, patches, and system inconsistencies.
- Prepared and executed SQL scripts to analyze and troubleshoot functional issues across Oracle Cloud/Fusion modules.

*Environment: Oracle Fusion Cloud 25A/25D (OM, PO, INV, Pricing) | Oracle EBS R12.1.3*

**Oracle EBS Functional Consultant – Production Support | NTT Data | Hyderabad Aug 2018 – Jul 2021**

**Project: Integra Life Sciences – Oracle EBS Support (INV, PO, OM)**

- Provided day-to-day functional support to business users, ensuring seamless flow of business processes across Inventory, Purchasing, and Order Management.
- Resolved tickets on priority basis; tracked all issues in the ticketing tool and delivered functional solutions using Solutions Documents.
- Raised and managed Oracle SRs; coordinated with Oracle DBA team on action plans and patches.
- Prepared BR100 documents for application setups and profile options.
- Executed test scripts for designed solutions; submitted status reports to Project Manager and Client Service Manager.
- Provided parallel support (PST) to offshore client hours in a 24x7 production environment.
- Prepared training materials (PowerPoint and Word) for business users and end users.

*Environment: Oracle EBS R12.1.3 (OM, PO, INV)*

**Oracle Fusion Functional Consultant – Migration & Testing | Jade Global | Pune Apr 2018 – Jul 2018**
