Dear Hiring Manager,

I am writing to express my sincere interest in any teaching opportunities that align with my qualifications and professional experiences. I am Aldwin M. Martin, a graduate of Bachelor of Secondary Education major in Physics, with a strong passion for teaching and a firm commitment to nurturing learners across different levels and cultural backgrounds.

I bring over eight years of combined experience in education—a blend of classroom instruction, research, and academic support — both in the Philippines and abroad. Domestically, I have taught for 3 to 4 years in both private and public schools, where I honed my expertise in delivering Physics content to junior and senior high school students. I also served as a Research and Administrative Assistant at *Isabela State University* for two years, where I supported educational research and academic management tasks.

Presently, I have been working as an international Physics teacher for the past 3 years in Indonesia, implementing the Pearson Edexcel curriculum (IGCSE and IAS). In addition to teaching Physics, I am also actively involved in special programs, conducting IELTS/English classes and intervention programs for Papuan learners, addressing their unique linguistic and academic needs. These roles have enhanced my versatility, cultural sensitivity, and ability to adapt pedagogy to varied learning contexts.

What defines me most as an educator is my genuine passion for teaching, regardless of the students' backgrounds or academic levels—whether they be children, junior high, or senior high school learners. I take pride in fostering a student-centered learning environment, cultivating critical thinking, scientific curiosity, and personal growth among my students.

I am enthusiastic about the opportunity to bring my global teaching experience, academic discipline, and heartfelt dedication to your institution. I am confident that my background and professional values align well with your educational goals.

Thank you very much for considering my application. I would be delighted to further discuss how I can contribute to your academic team. I look forward to the possibility of an interview at your convenience.

Respectfully yours,

**Aldwin M. Martin**
