## Sosogon: The Rise of Rail Network Development in Sorsogon

**Type:** Transportation Infrastructure Project  
**Site:** Brgy. Gadgaron, Matnog, Sorsogon  
**Subject:** Design 10: Thesis Project

**Developed tasks:** The project focuses on designing a railway station and transport hub that integrates public transport, commercial areas, and community spaces. It includes planning the layout, circulation, and overall architectural design of the development.

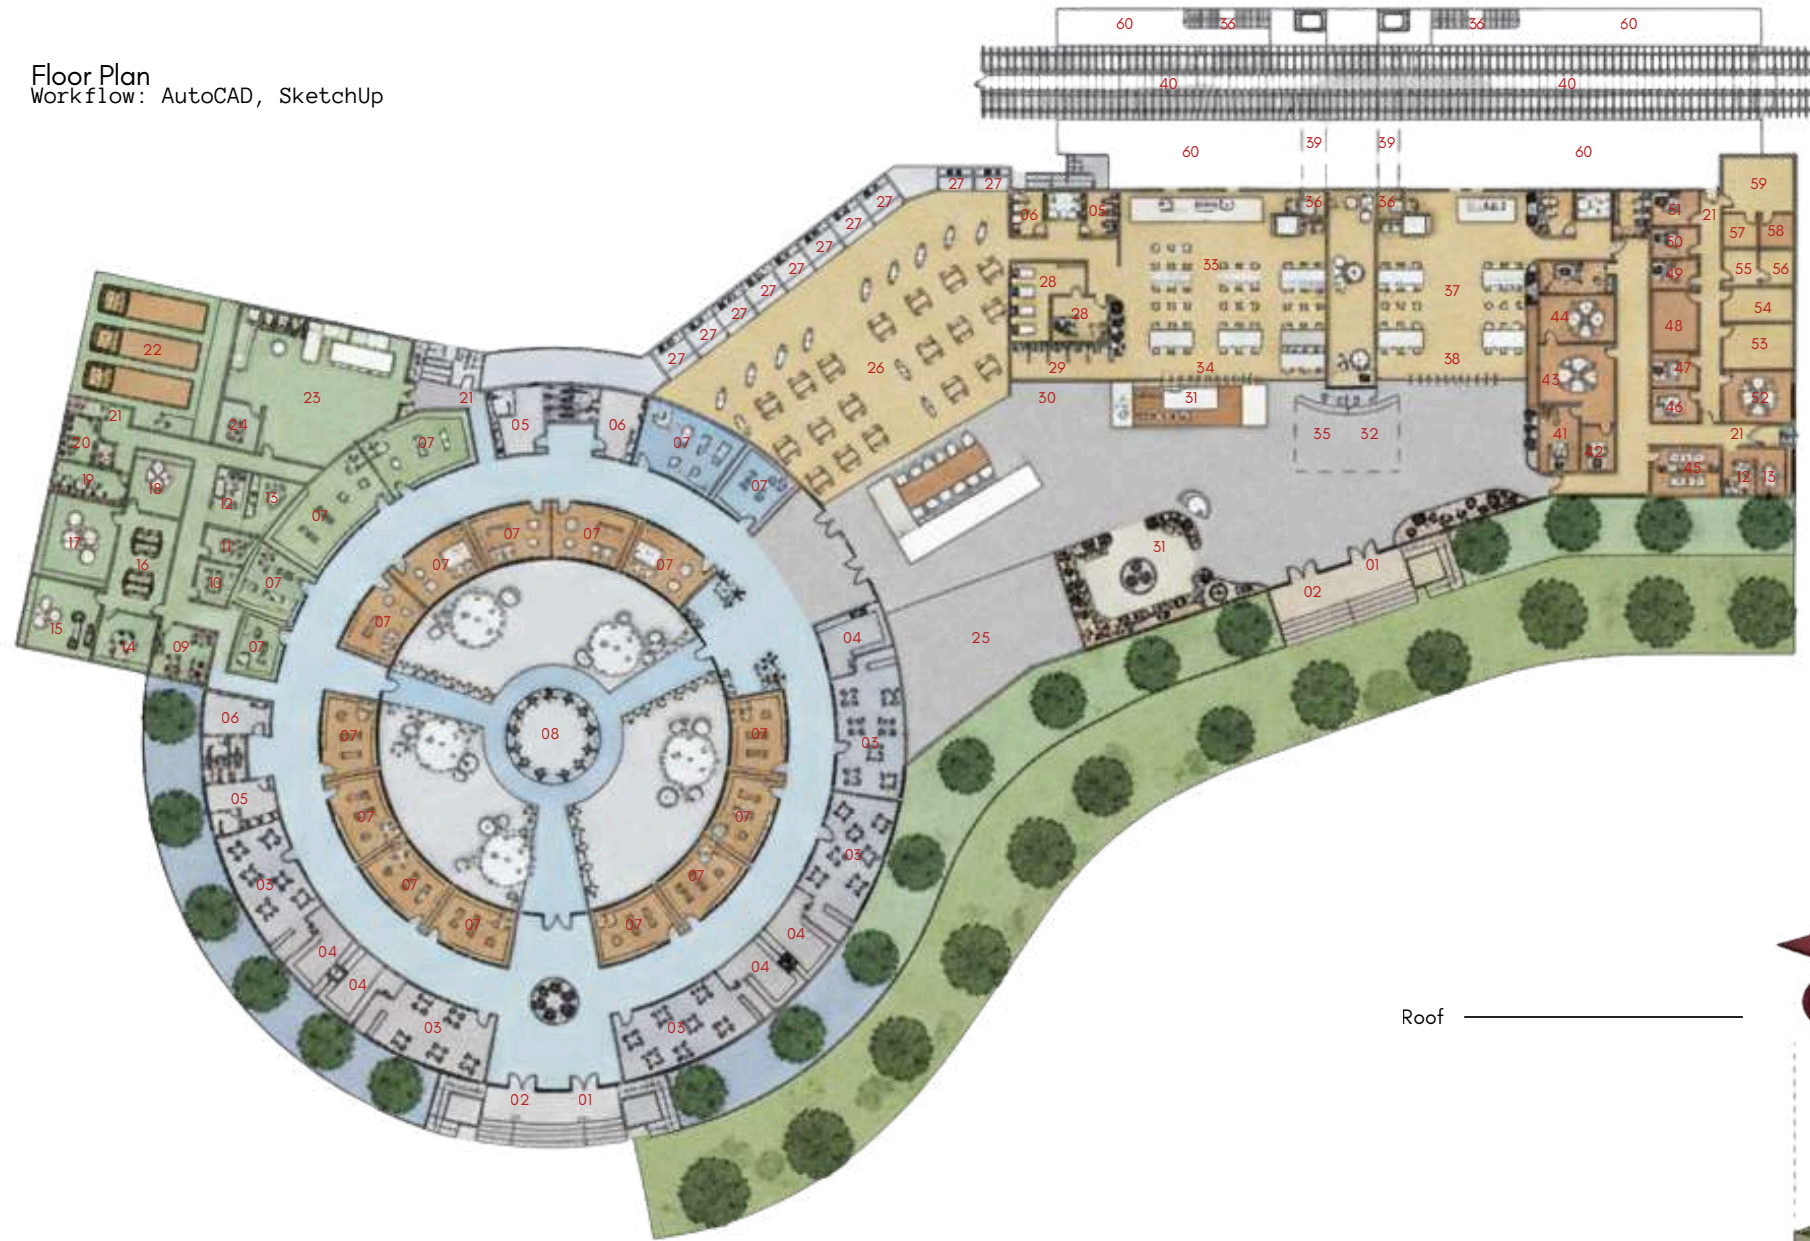

### Project Description:

The project proposes the development of a rail network extension in Sorsogon as part of the ongoing revival of railway transportation in the Bicol Region. Historically connected to Metro Manila through the Bicol Express, rail services ceased in 2014 due to right-of-way issues. With rehabilitation efforts underway, the project envisions extending rail services from Legazpi City to Sorsogon to improve regional connectivity and mobility. The development aims to provide faster, more accessible transportation while supporting economic growth and community interaction.

**B****Built Projects****D&H Residence**

**Services Provided:** Design, Working Drawings, Site Supervision

**Type:** Residential Project

**Site:** Daet, Camarines Norte

**Developed tasks:** Produced working drawings: Architectural, structural, Electrical, & Plumbing plans. Supervised the site. Coordinated and consulted with allied professionals involved.

**Project Description:**

The project is a single-storey vacation house designed for a family based in Canada, intended as a relaxing retreat during their visits to the Philippines. Located near Bagasbas Beach, the house provides convenient access to the beach while maintaining a quiet residential setting.

The design focuses on comfort, simplicity, and functionality, incorporating natural ventilation and an open layout to suit a tropical vacation environment. It serves as a peaceful getaway for rest and family gatherings.

## Bautista Residence

**Services Provided:** Design, Working Drawings, Site Supervision

**Type:** Residential Project

**Site:** Labo, Camarines Norte

**Developed tasks:** Produced working drawings: Architectural, structural, Electrical, & Plumbing plans. Supervised the site. Coordinated and consulted with allied professionals involved. Submitted the required building permit documents to the Engineering's Office for approval.

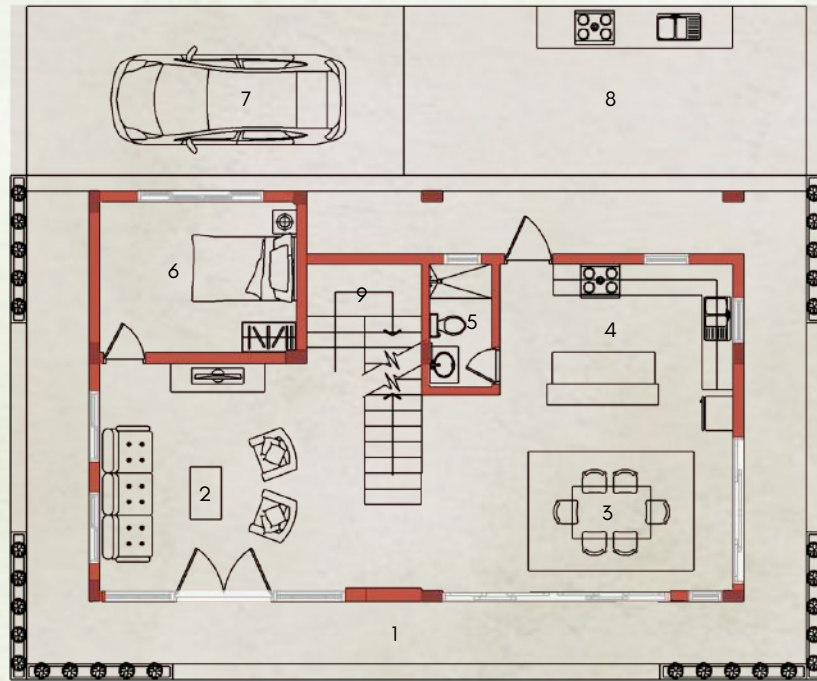

### **Project Description:**

The project is a two-storey residential house designed for a starting family, focusing on comfort, functionality, and adaptability for future growth.

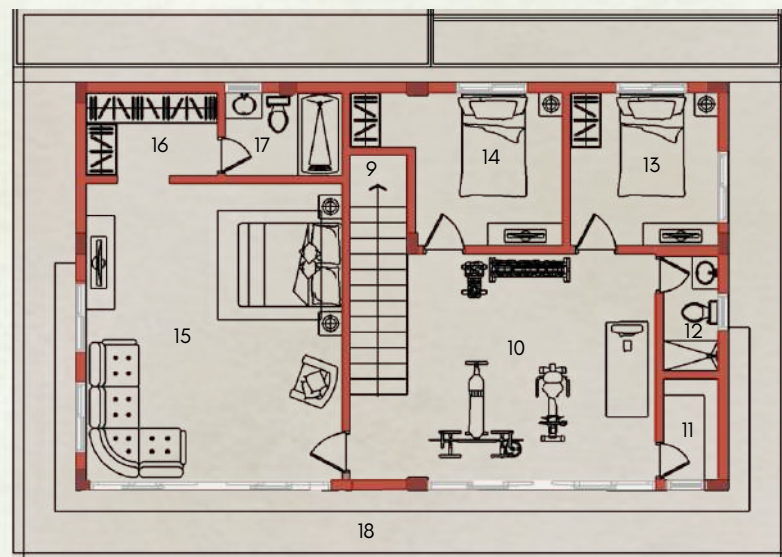

The house is envisioned to accommodate the needs of a young family, with spaces that encourage interaction, privacy, and relaxation. It aims to create a welcoming and efficient living environment suited for long-term residence.

## MD Beach House

**Services Provided:** Design, Working Drawings, Site Supervision

**Type:** Residential Project

**Site:** Paracale, Camarines Norte

**Developed tasks:** Produced working drawings: Architectural, structural, Electrical, & Plumbing plans. Supervised the site. Coordinated and consulted with allied professionals involved.

### **Project Description:**

The project is a two-storey beach house designed for an American-based family of seven who enjoys spending time by the sea. Located at the beachfront, the residence is envisioned as a comfortable and spacious retreat that accommodates both family gatherings and leisure activities.

The design focuses on creating a relaxed coastal living environment, emphasizing comfort, natural light, and ventilation to suit the tropical setting, offering a functional and enjoyable vacation home that reflects the family's lifestyle and love for the beach.

## Aniceto Residence

**Services Provided:** Design, Working Drawings, Site Supervision

**Type:** Residential Project

**Site:** Daet, Camarines Norte

**Developed tasks:** Produced working drawings: Architectural, structural, Electrical, & Plumbing plans. Supervised the site. Coordinated and consulted with allied professionals involved.

### Project Description:

The project is a single-storey residential house designed for a starting family of three. It is envisioned as a small, practical, and comfortable home that meets the essential needs of a young household.

The design focuses on functionality, efficiency, and livability, providing well-planned spaces that support daily activities while maintaining a cozy and welcoming atmosphere suitable for a small family.

## Uy Commercial Building

**Services Provided:** Design & Architectural Plans

**Type:** Commercial Building

**Site:** Pili, Camarines sur

**Developed tasks:** Produced Architectural plans.

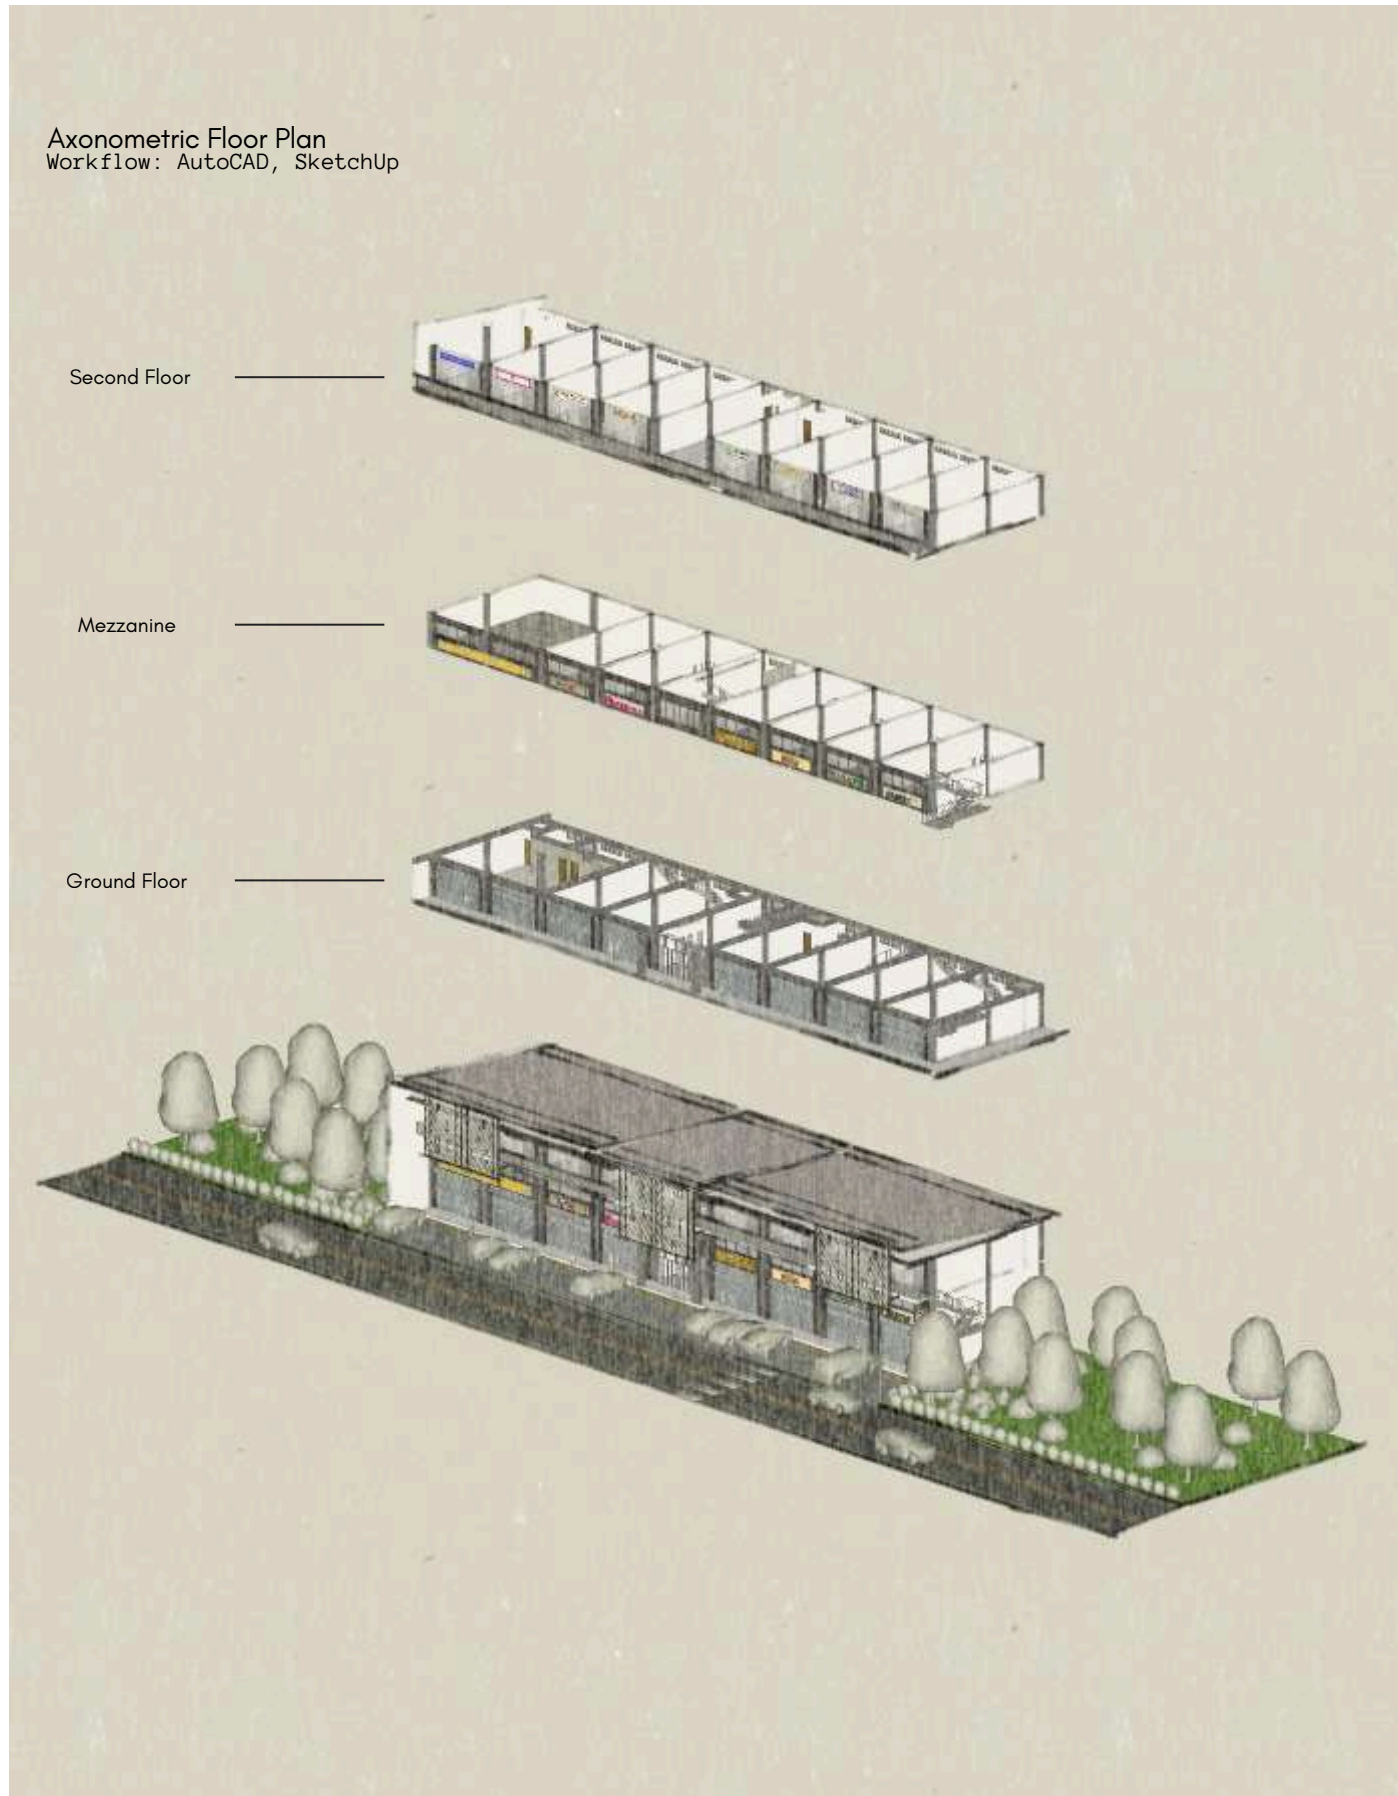

### Project Description:

The project is a two-storey commercial building designed to accommodate retail and office functions within a single development. It aims to provide a functional and accessible space that supports business activities while maximizing the use of the site.

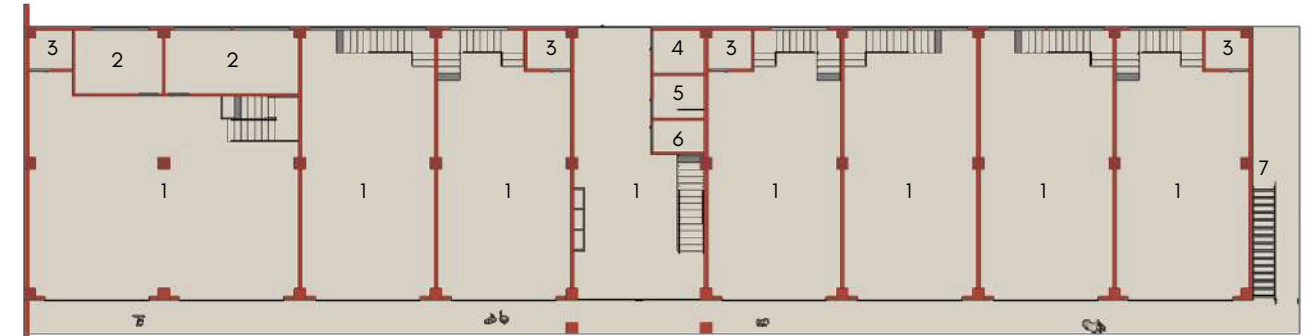

It incorporates a practical layout that promotes smooth circulation, visibility, and a comfortable environment for both tenants and visitors, resulting in a modern commercial facility suited for business operations and growth.

## Lazo Commercial Building

**Services Provided:** Design & Architectural Plans

**Type:** Commercial Building

**Site:** Labo, Camarines Norte

**Developed tasks:** Produced Architectural plans.

### Project Description:

A completed four-storey commercial building designed exclusively for retail use, maximizing visibility, accessibility, and continuous customer flow. Each level is composed of flexible retail units, organized through efficient circulation and clear spatial planning. The architecture reflects a modern and cohesive design, integrating clean lines, ample natural lighting, and functional spaces to create a dynamic and engaging commercial environment.

## Architectural Interior Projects

Rodriguez Residence

**Services Provided:** Architectural Interiors

**Type:** Residential Project

**Site:** Naga City, Camarines sur

**Developed tasks:** Produced space planning, layout design, architectural interior design, cabinet details, and design custom-built furniture.

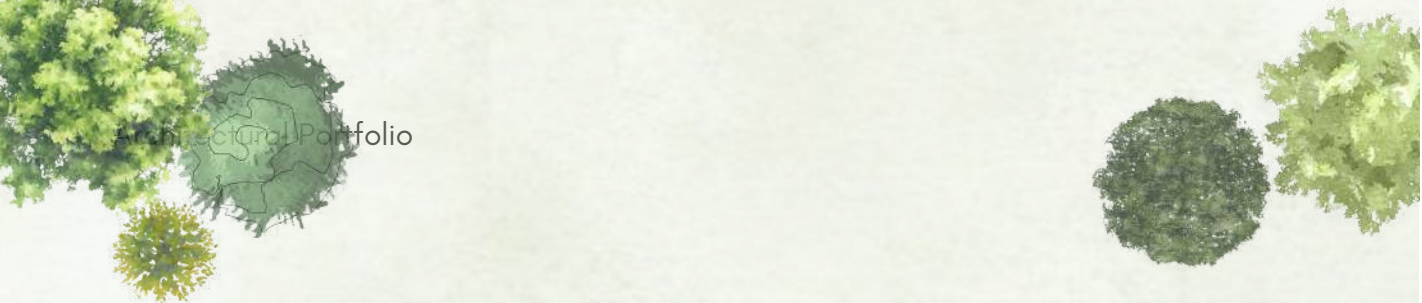

**Project Description:**

This two-storey residential project is designed to provide a warm, comfortable, and functional living environment. The home features five bedrooms, offering ample private space while maintaining a cohesive overall design.

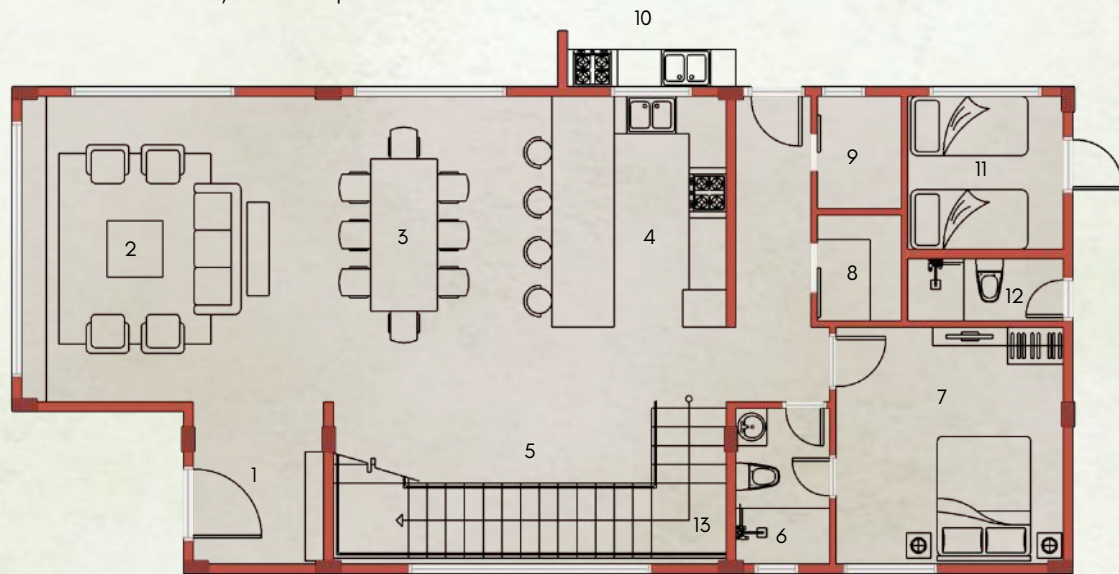

An open-plan layout seamlessly connects the living, dining, kitchen, and lounge areas, promoting natural flow, interaction, and light throughout the space. The design emphasizes a cozy and homey atmosphere through the use of soft tones, warm materials, and layered lighting, creating a welcoming environment for everyday living.

## DYD Airbnb

**Services Provided:** Architectural Interiors

**Type:** Commercial Project

**Site:** Naga City, Camarines sur

**Developed tasks:** Produced space planning, layout design, architectural interior design, cabinet details, and design custom-built furniture.

**Project Description:**

This project showcases the interior design of an industrial-style Airbnb, crafted to deliver a unique and memorable guest experience. The design highlights raw and honest materials such as exposed concrete, metal accents, and wood finishes, creating a bold yet inviting atmosphere.

The space is carefully planned to balance aesthetics and functionality, ensuring comfort while maintaining a strong visual identity. Open layouts, strategic lighting, and curated furnishings enhance the overall ambiance, resulting in a modern, edgy environment that reflects the character of industrial design while remaining warm and livable.

## DC Residence

**Services Provided:** Architectural Interiors

**Type:** Residential Project

**Site:** Legazpi City, Albay

**Developed tasks:** Produced space planning, layout design, and architectural interiors.

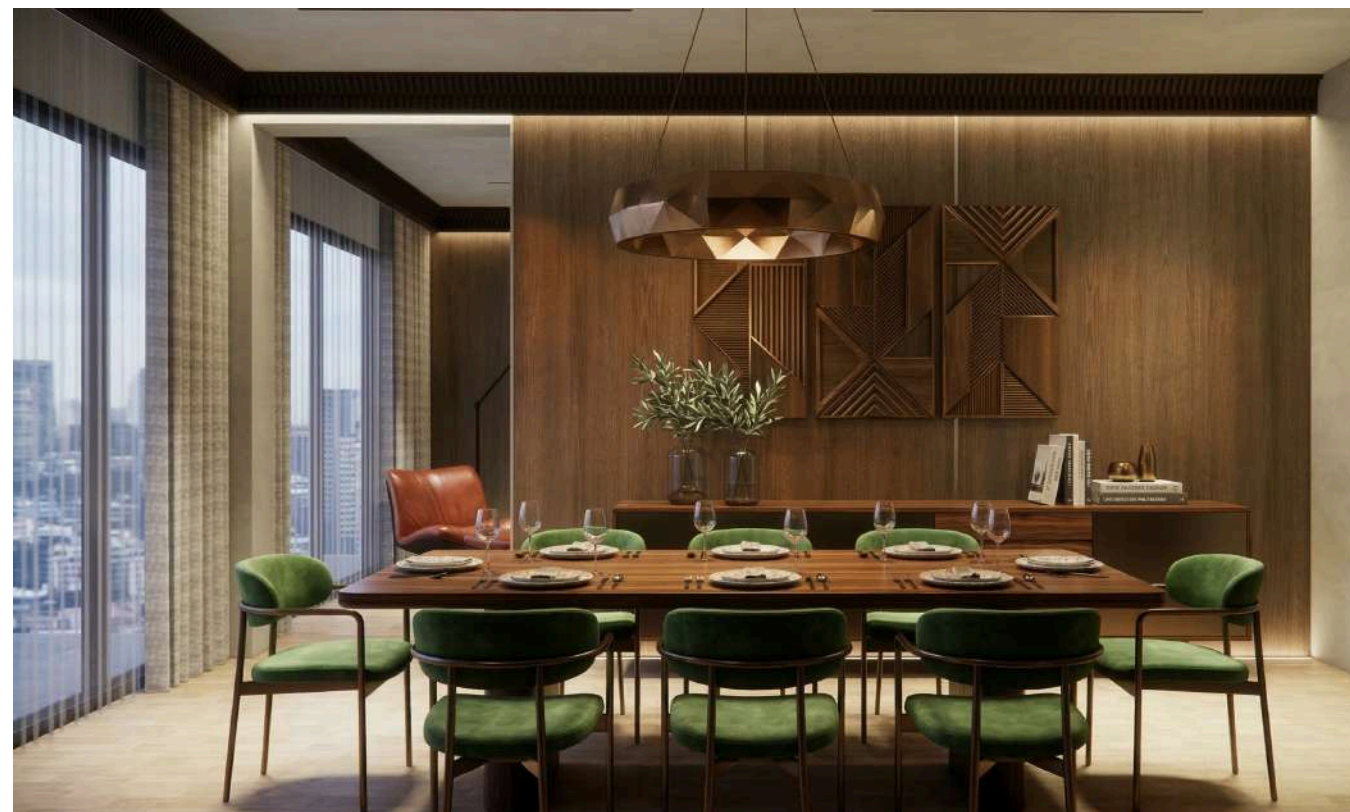

**Project Description:**

This project presents the renovation of a residential living area and dining area defined by rich wood textures and a warm, earthy palette. The design centers on a statement wall that adds depth and character, complemented by carefully selected furniture pieces that introduce contrast and visual interest.

A balance of modern and retro influences is expressed through clean lines, sculptural forms, and ambient lighting. The overall composition creates an intimate yet refined space, emphasizing comfort, texture, and a distinct visual identity.

## Cheng Residence

**Services Provided:** Architectural Interiors

**Type:** Residential Project

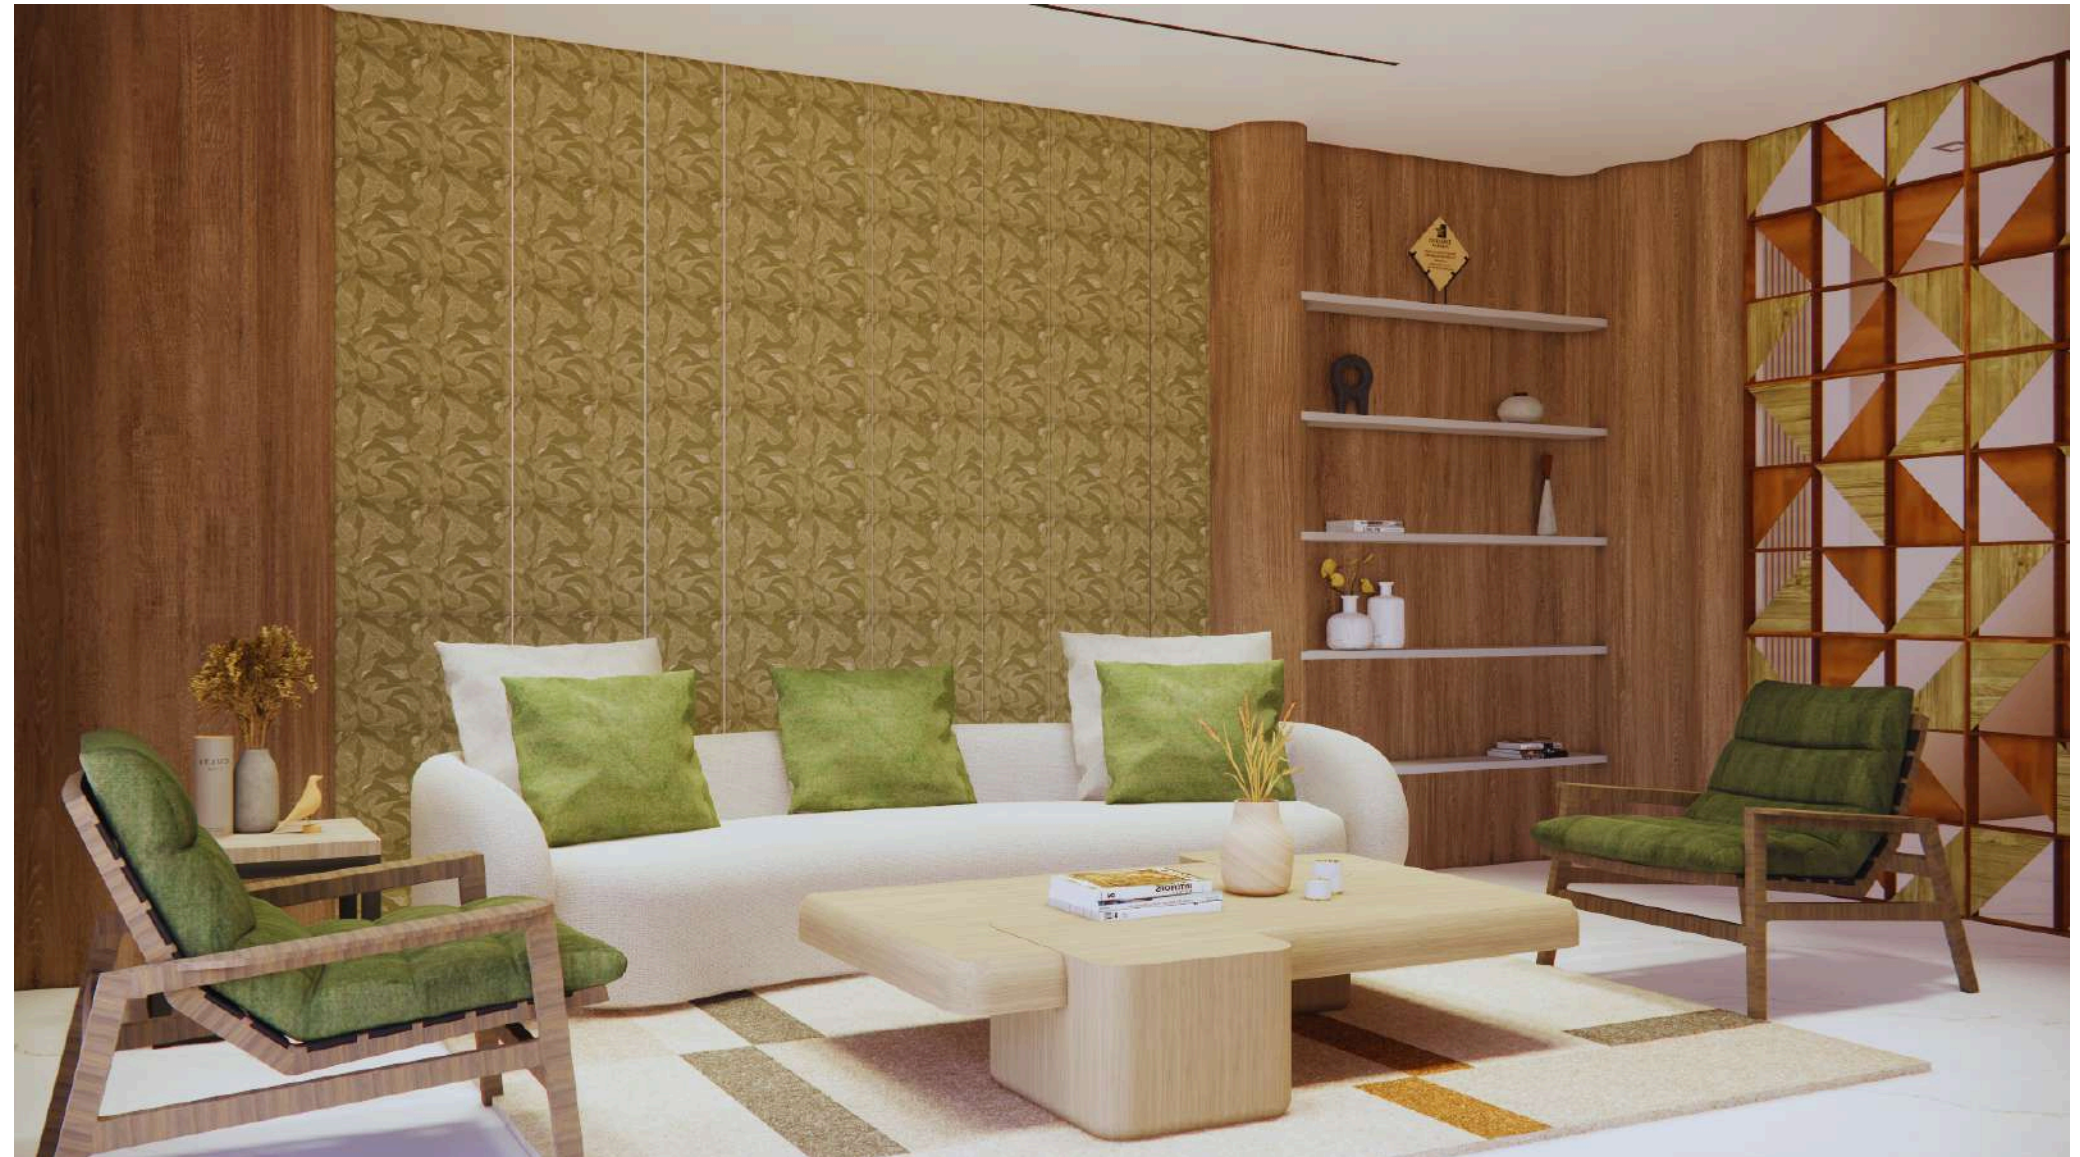

**Site:** Naga City, Camarines sur

**Developed tasks:** Produced space planning, layout design, and architectural interiors.

**Project Description:**

This project features the renovation of a residential living area, designed to create a warm and inviting atmosphere through a balanced combination of natural textures and earthy tones. The space is anchored by a neutral seating arrangement, complemented by green accents and wood finishes that enhance visual harmony.

A feature wall with subtle patterns and integrated shelving adds depth and character, while the layout promotes comfort and easy interaction. The design emphasizes a modern yet organic approach, using soft forms, layered materials, and natural lighting to achieve a relaxed and cohesive living environment.
